**4. Rate for USA Terminating Traffic: US\$0.055.**

- Notes:
- The tables above reference the MNPA's under the new 10 digit dialing plan in Mexico.
- Telmex has provided, in a separate electronic file (due to the amount of raw data) the necessary logic to map the old 8 digit dialing plan to the above mentioned rates, as the 8 digit dialing plan will co-exist with the new 10 digit plan until, at the latest, May 17<sup>th</sup>, 2002.
- Above rates and factors apply specifically to the following services: dial, station-to-station, person-to-person, Paid 800, ISDN, facsimile, calling card calls either dialed directly by a subscriber or operator handled, and such other services as the Parties may expressly agree shall be included in this Agreement.
- For International 800 (I-800), Home Country Direct and Received Collect Services a flat, per minute rate of US\$ .11 will apply.
- A \$2.00 surcharge applies per Received Collect message that uses one or more of the following services (Person-to-Person collect, Station-to-Station collect) when the ticketing is performed at the originating location.

- For Operator Station, Person Collect, and Person-to-Person calls, a three (3) minute minimum charge shall apply for each message.
- Proportionate return methodology 2-2-2.
- The parties agree to consider a different methodology (i.e. 1-2-1) for 2003.
